

DRYSHADES PRIVATE LIMITED

Netrecx · Mecwerx

One accountable partner for **industrial sourcing** and turnkey execution.

From requirement to reality — products sourced, systems engineered, and projects delivered under one coordinated engagement.

Industrial Sourcing

Custom Manufacturing

Material Handling

Electrical & Panels

Assemblies & Machinery

THE EXECUTIVE PITCH

Simplify the industrial buying and execution burden.

OUR PROPOSITION

Give Dryshades one requirement.
Hold one company accountable for
the coordinated outcome.

Industrial projects often require products, fabrication, electrical work, logistics, installation, and commissioning from multiple parties. The result is fragmented responsibility, repeated follow-ups, and specification risk that lands on the buyer's team.

What changes for your team

- **Fewer vendor interfaces**

Consolidate multi-brand, multi-category requirements into one commercial relationship.

- **Better specification alignment**

Structured, engineering-led quotations matched to your requirement.

- **A continuous handover**

Supply flows into fabrication, installation, and commissioning without changing counterparties.

- **Clear ownership**

Sourcing, QC, logistics, documentation, and project coordination sit with one partner.

COMPANY & PORTFOLIO

Two specialist brands. One industrial journey.

Dryshades Private Limited operates from Greater Noida (NCR), India. Its two brands cover the industrial journey — from sourcing products to building complete, working systems.

BRAND 01

NETRECX

Industrial Sourcing & Supply

Multi-brand sourcing across IT, electronics, networking, electricals, automation, plant supplies, MRO, safety, and allied categories.

netrecx.com

BRAND 02

MECWERX

Turnkey Engineering & Execution

Design, custom manufacturing, fabrication, installation, integration, testing, and commissioning of industrial systems.

mecwerx.com

NETRECX · INDUSTRIAL SOURCING

Sourcing without the vendor sprawl.

Send a BOQ, BOM, spec sheet, or a one-line enquiry — we structure the requirement and manage quotation, QC, and delivery.

01

IT & Computing

Desktops, servers, storage, monitors, peripherals

02

Electronics

Components, connectors, sensors, ICs, semiconductors

03

Networking & Fiber

Switches, routers, racks, OFC, patch panels

04

Security Systems

CCTV, IP cameras, NVRs, access control, alarms

05

Electrical & Power

Panels, switchgear, cables, lighting, UPS

06

Automation & Control

PLCs, VFDs, HMIs, relays, instrumentation

07

Power Transmission

Motors, gearboxes, couplings, belts, chains

08

Pumps, Valves & Piping

Pumps, valves, pipes, fittings, hoses, seals

09

Mechanical Parts

Bearings, fasteners, springs, seals, machined parts

10

Material Handling

Conveyors, pallet trucks, racking, hoists

11

Tools & Workshop

Power & hand tools, test instruments, consumables

12

Welding & Fabrication

Welding kits, filler wire, gas equipment, abrasives

13

HVAC & Utilities

Compressors, blowers, chillers, air/water treatment

14

Safety & PPE

Helmets, gloves, footwear, fire safety, signage

15

MRO & Facilities

Lubricants, adhesives, spares, housekeeping

BEYOND THE CATALOG

If the item is not listed — send it anyway. Our sourcing network supports requirements outside these categories.

MECWERX · TURNKEY ENGINEERING

Working systems, delivered from concept to commissioning.

NX-CM

Custom Manufacturing

Engineered equipment and structures fabricated to drawings, specifications, and applicable standards.

NX-MH

Material Handling

Conveyors, storage, and movement systems for factories and warehouses — installed and commissioned.

NX-EL

Electrical & Panels

Industrial control panels, LT panels, and power distribution systems designed, built, integrated, tested.

NX-AS

Assemblies & Machinery

Plant machinery, mechanical assemblies, and utilities delivered as complete working systems.

KEY ADVANTAGE

No handover gap between sourcing and execution — both sit within Dryshades.

ENGAGEMENT MODEL

From enquiry to accountable delivery.

Share your requirement **01**

BOQ, BOM, specifications, drawing reference, or written enquiry — in any practical format.

Receive a structured quotation **02**

Itemised, specification-matched pricing with lead times and a defined scope.

Confirm one commercial relationship **03**

One PO to one counterparty — even with multiple brands or work packages.

Delivery, execution & handover **04**

Sourcing, QC, logistics, documentation, installation, and commissioning — coordinated.

Choose the model that fits

Consolidated Supply

Multi-brand or multi-category BOQs/BOMs

Source · match · consolidate · deliver

Supply + Integration

Equipment that must connect with the plant/site

Supply · coordinate · install · test

Turnkey Execution

A complete engineered system or project

Design · fabricate · install · commission

WHY DRYSHADES

Built for industrial teams that value clarity and ownership.

01

Single-window accountability

One company responsible for coordinating the commercial and delivery outcome.

02

Engineering-led communication

The team speaks in specifications, interfaces, and operating requirements.

03

Broad sourcing reach

15 core categories enable practical consolidation across plant, project, and MRO.

04

Execution capability

Mecwerx extends the relationship into fabrication, installation, and commissioning.

05

Compliance-ready

Authorised channels, warranty support, GST compliance, OEM authorisations.

06

Private + government

Capability across private supply and public procurement — GeM and tenders.

07

Pan-India support

Supply and project delivery support across India from Greater Noida, NCR.

08

Operating perspective

Leadership brings ~12 years of manufacturing and industrial operations experience.

PORTFOLIO SNAPSHOT

One partner. Many capabilities.

15

Core sourcing categories

IT, electricals, mechanical, safety, MRO and more

04

Turnkey service lines

NX-CM · NX-MH · NX-EL · NX-AS

02

Specialist brands

Netrecx sourcing · Mecwerx execution

12+

Years of operating perspective

Manufacturing & industrial operations

PORTFOLIO PROMISE

A requirement can begin as a product enquiry and scale into full engineering execution — without changing counterparties.

A PRACTICAL PILOT

Evaluate us with one live requirement.

Start with a requirement that currently involves multiple vendors, a difficult specification, or a supply-to-installation handover. We will return a structured response so your team can assess fit, clarity, and accountability.

SUGGESTED PILOT TYPES

- **Multi-line BOQ / BOM**

Consolidated supply across brands and categories

- **Recurring plant requirement**

Regular MRO, consumables, or spares programme

- **Small engineered package**

Supply + installation with a defined delivery window

NEXT STEP

Send the next requirement. See the difference.
